Meet our host Partners

We're excited to share the newest page of our website! Through our "Meet our Host Partners" page, we will be showcasing a selection of our host partners and the great work we do together, to provide sustainable placements for our apprentices.

Our first host partner to be featured are Canna Developments, who currently host four of our apprentices at their Cwrt Canna site. Read the full story to find out why the flexibility of our shared apprenticeship model works so well for them!

"We've built a mutually beneficial partnership with Y Prentis. The Y Prentis team are helpful, reliable and knowledgeable. Their approach, like ours, is person-centred – our cultures align.

We have offered our own apprenticeships in the past, however it became increasingly challenging to manage and we identified that partners like Y Prentis could work with us to provide these opportunities".

Toby Moseley MBA PGDip Senior Marketing Manager

"Often Y Prentis support some of the hardest to reach individuals who would otherwise struggle to find work and training elsewhere. So, by working with Y Prentis we are also helping some of the vulnerable and hard to reach members of our society...The process doesn't have to be difficult, especially with the support of Y Prentis."

Mike Little Social Value Manager
